

COMPACT SEWAGE TREATMENT PLANT

For Different Types of Industries, Special Economical Zones (SEZs), Industrial Complexes, Municipal Corporations, Nagar Nigam, Hotel Industries And Residential Colonies

Compact (Plug & Play) Sewage Treatment Plants for inland applications have been designed for gravity or pumping treatment of domestic sewage and built to be installed on the surface these plants carry out the sewage treatment by biological means. The Plants are of the activated sludge process & MBBR process without requiring any other kind of dosing or addivation.

The Plant is single built in a closed module which has different chambers have been arranged, facilitating their transport and installation. Every chamber has been provided with the necessary access and inspection registers. This modular construction allows the increase of the processing capacity by placing more Plants in parallel. The air diffusers responsible
